Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Nadyne Orloff

I live in a rural area. I don't have a choice for internet.....I only have Time Warner available. If they were allowed to slow down the internet just because I am not one of the lucky few is a disservice to the American people. Please reject corporate gatekeepers and make the internet available equally to all.

Sincerely,  
Mrs. Christy Snider

Subject: Please protect Internet openness!

Dear Commissioner Wheeler,

You are our only line of defense in this fight! As a small business owner, I feel the threat is two-fold, both as a consumer and as a person already struggling to keep up with much larger and better-financed competitors.

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Sean Monahan

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Melissa Judge

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

Over 200 years ago, it was said that we are a government of the people for the people. The Internet is a 21st century "public square" for hundreds of millions of citizens.. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Big money corporations are not people. Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. As an important part of our government "for the people" the FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Thank you for your time.

Sincerely,  
Ms. Janis Krug

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Baba Jacobson

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

While the following was prewritten - I agree with its content completely. In Europe they have faster lanes to start with than we do. I don't want to be a 2nd. class internet user on an already slow system.

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

The Internet was developed as a tool to dispense knowledge, and it is now contaminated by a variety of "knowledges" that represent nothing but private business interests (advertisements). I do not approve of nor do I appreciate privatizing the Internet through the role of control and gatekeeping. I value and support an Open Internet, and only an the free exchange of information and knowledge through an Open Internet.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Petition Mailbox  
DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The United States is supposed to be governed for the people of the United States not for the corporations of the United States or elsewhere. Large media corporations want to own the internet and squeeze as much money out of it as they can by censoring content and controlling access. The potential of this control to destroy the internet as a source of information is obvious.

Net neutrality is a clear choice between what is good for a few small ultra wealthy corporations versus what is good for the American people. The choice is totally clear. Regulation of the internet as a public utility will enable the FCC to protect net neutrality and the interests of the public.

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Dr. Nike Stevens

Dear Commissioner Wheeler,

The Internet is like our public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates and to learn from our critics. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. Corporate voices, therefore, will always be deemed suspect-- unreliable and self-serving-- even when delivering necessary public service messages.

One vivid example of this mistrust is leading to the explosive Ebola virus in communities who do not trust medical authorities because they are considered elitist and self-serving.

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. David Callahan

Mrs. Corrine DiMarco

Subject: SENIORS THROWN UNDER THE BUS IN THE ACA

Hi,

This is important to be equitable to all of us in the USA. This is Elder abuse.

We probably got left out as a compromise matter. Let's cut congress' pay and expenses to make it up to US. What do they call that decrease to cover the increase? Offset.....

That's why I created a petition to The United States House of Representatives, The United States Senate, and President Barack Obama, which says:

"Restore the seniors who spend \$100 a month from their social Security earnings, and have to buy supplement health insurance (\$200/month) to cover their Medicare and are not covered under the 80/20 rule of the ACA. We are subsidizing the insurance companies on our backs"

Will you sign this petition? Click here:

[http://petitions.moveon.org/sign/seniors-thrown-under?source=c.em.cp&r\\_by=1652660](http://petitions.moveon.org/sign/seniors-thrown-under?source=c.em.cp&r_by=1652660)

Thanks!

DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Lori Randlett

Ms. June Gollatz

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Putting the power of the internet into the hands of certain corporations like Comcast, Time Warner and others can have a limiting and negative impact on the general public. We are already impacted negatively by high costs imposed by such companies...so it is imperative that you provide proper oversight and do not cause the general public to be burdened further. It is within your power to take appropriate action.

Sincerely,  
Ms. Celia Cordero

Seriously - keep the Internet the way it is - no fast vs. slow lanes -  
no premium advantages for large businesses.

Don't let President Obama's presidency become known as the one that  
ruined the internet in the U.S. for small businesses and the population  
in general. Let's keep allowing everyone and anyone to innovate via the  
web for the good of our country!

The Internet is our 21st century public square. We use it to inform  
ourselves about candidates, debate the issues, and organize with other  
advocates. The Internet's role as a vibrant platform for public  
discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm  
all of us. Corporate voices will always be able to afford special  
access while independent and non-profit voices suffer. The FCC must  
reject any plan that would allow corporate gatekeepers to control web  
traffic and recommit to the Open Internet by reclassifying broadband as  
a utility.

Please, please, please - consider the consequences and act for the good  
of the majority of citizens, not powerful corporations and the wealthy  
minority.

Sincerely,  
Mr. Kelly Blank

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy. It is a connector, between all of us, and is important to keep open.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. This sounds a lot like the work of the more conservative sorts, to limit voter registration, too. An effort to keep an already inordinate power in the hands of the few. This sort of thing is anti-democracy in every way. And thus, is a present day variation on the simple right to be taught to read, as a fundamental of maintaining our Republic!

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Stephen Mcnew

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Cedric Stroehnisch

Mr. William Garrison

Is that the problem? That people have been participating and getting informed? Ruining something that has been working very well so that a very few can get even more wealthy is not a legitimate reason for allowing the few who would profit to destroy something everyone depends on.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Dear Commissioner Wheeler,

Honestly, if the nation's ideals, from the start, included vital roads, railways and the postal systems to be public, then I bet my life they would have included Internet infrastructure as public too. They simply had no idea such an advancement could occur.

But now it has, and the Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

There are so many examples of the effectiveness of the internet's instant and wide-range communication - farmers sharing info on how to get the soil to collect the carbon out of the atmosphere is just one! My ability to get info fast about just about anything is another. We know from past experience that corporations care not one whit about individual citizens. We the people, = the government, do NOT want corporations to be able to limit OUR communications with their money. You are a representative of US the INDIVIDUAL citizens - please act accordingly.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

This is incredibly important. A democracy canNOT survive without open communication. In ancient Rome, people gathered at the Forum to hear and discuss issues. Our regions have grown way bigger than cities like Rome - so we need this OPEN and FREE internet as our Forum.

Sincerely,  
Virginia Smedberg

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Laura Timmis

Subject: The Internet Should be a Common Carrier

Dear Commissioner Wheeler,

Personal comment:

I vote for net neutrality. I want open, affordable, and fast access to the web. I want to reclaim the web as a common carrier. I do not want web content packaged for me. I do not want high speed access for those who can afford it and low speed for the rest of us.

Dear Commissioner Wheeler,

Without free and equal access to the Internet, America will lose much of its competitiveness in the world, as well as an important element of our democracy. We cannot afford to let wealthy and powerful individuals and corporations control this basic instrument of public debate and communication.

I strongly urge the FCC to reject any plan that restricts high-speed Internet to "fast lanes" accessible only to the privileged members of our society. Please guarantee that broadband be classified as a utility, open equally to all.

Sincerely,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy. The net is our medium for freedom of speech! As such it is an assumed right.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Miss Rosita Aranita

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Lou J Apa

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet's role is vital to our democracy.

Letting well-financed interests build fast lanes for the few is discrimination.

This is just 1 more "WEAPONIZATION" of the Corporate Kleptocracy against US Citizens.

The FCC would create a MONOPOLY of corporate gatekeepers able to deny equal access to information and freedom of expression. What could say more loudly, or clearly that **ONLY THOSE WITH MONEY DESERVE** (timely) **ACCESS** to information **AND** (timely) **FREEDOM** to express oneself?

You **ARE** the Federal Communication Commission. You must protect the People's right to a "Free Press," and you are accountable to protect- without discrimination- a free and Open Internet.

Sincerely,  
Mrs. Carol Sheppard

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

I am your true constituency. I'm sick of favors being granted to the companies that subsequently charge me money for something they got unethically. Banks, utilities, real estate sellers, have priced me out of the market. I have no chance of ever rising out of poverty. As a disabled person, I live on less than \$10k every year.

My one chance to better my life is to market my skills via the internet. If you give control of that to private providers, I will die indigent, with nothing to leave my child, including a life insurance pay-out or possessions that are worth anything.

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. J C Vincent

Ms. Sandra Venning

DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mrs. Belinda Wilks

Dear Commissioner Wheeler,

The internet has replaced newspapers and magazines. Radio and television have been consolidated to the point that there is no easy access to factual information. THE INTERNET is the only remaining vehicle for effective public discourse.

If you allow the fictional "market" to control the internet, the only people speaking will be the extremely wealthy. It will be the last straw - the one that broke the back of Democracy.

Preserve Net Neutrality.

Sincerely,  
Mr. David Nevin

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mrs. Barbara Goldstein

Subject: Please Protect Internet Freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

It is tremendously important to me that the internet remain a fair and equitable space in which to work, play, learn, write, read, view, and socialize. Any hindrance to internet access would be a hindrance to social mobility, entrepreneurship and innovation everywhere. Please keep the Net Neutral!

Sincerely,  
Ms. Ryan Dorsey
